

EDITORIAL

Each month, the *Birmingham Medical News* highlights a clinical or business focus. These features provide local, detailed information on topics relevant to the fast-changing healthcare sector. In addition to the focuses, each issue includes current medical news that matters to this market.

MONTH	FOCUS TOPICS	
January	Gastroenterology	
February	Cardiology	Endocrinology
March	Nephrology	Patient Safety
April	Asthma & Allergies	Autoimmune Disorders
May	Women's Health	Behavioral Health
June	Precision Medicine	Alzheimer's/Neurology
July	IT	Reimbursement
August	Pediatrics	Trauma Care/Emergency Medicine
September	Orthopedics	Practice Management
October	Genetics	Oncology
November	Chronic Disease Management	Rural Health
December	Men's Health	Rheumatology
